

**ENGLISH EDUCATION PATHWAY
(English Single Subject Matter Program)**

This is a *suggested* pattern for completing the English Single Subject Matter Program requirements in a coherent and timely manner. It is certainly not the only way this program can be completed, but this worksheet is intended to provide a suggested progression through the requirements. Completing the program will certify you as Subject Matter Competent to teach English at the secondary level and will waive the need to take the California state CSET exam.
